

Business Development & Strategic Advice

Business Risks can be External or Internal

We work with you to devise a strategy for you and your business. It is a three stage process involving:

Situation Analysis:

In order to identify the strengths and weaknesses in the business we undertake an assessment of the current position in terms of its resources, operations and organisation.

Identifying & Refining Your Business & Personal Goals

This could include devising key plans and/or strategies for:

- Business growth together with profit improvement and retention
- Cash generation and debt reduction
- Improving procedures and systems
- Effective monitoring of performance
- Succession planning alongside the selection and training of future leaders
- Your exit
- Negotiating the tax minefield to ensure maximum retention of profits, gains and income

Implementation

We would help in drawing up the action programme to identify:

- What needs to be done?
- Who will be doing it?
- How will it be done?
- When will it be done and what should be the deadline?
